

**This Webinar training will be split in 2 sessions every day as follows:****- Main Class**

Mr Adrien Tozzoli, CODE V expert, will teach the training topics, and will go through all Workshops associated. During this session, students will be able to ask questions about the main presentation. All students attending will listen to the questions and the answers.

Language : English

**- Workshop**

Each member (\*) of the CODE V support team will have separate small Webinar rooms, with 2 or 3 students, and will cover each workshop demonstrated by Adrien Tozzoli during the main class session. During this session all students are invited to ask all questions they want. If needed, they will share their own screen to describe their questions.

\*The engineers available for this workshop are :

- Mr Quentin Kuperman (Languages English/French)
- Mr Adrien Tozzoli (Languages English/French)
- Mr Adrien Manassero (Languages English/French)
- Ms Mary Kate Crawford (Language English)
- Mr Craig Pansing (Language English)

This 4 days class will cover exactly the same topics as our normal 3 days Introduction class.

Agenda :

- Morning : 9.15-11.45

- Afternoon : 14.15-16.45
