

## CODE V Advanced Training

CODE V is a comprehensive program for optical design, analysis, and fabrication support. It is used by engineers around the world to design a wide range of optical systems for a variety of products, including photographic equipment, video cameras, medical instruments, aerospace systems, and much more. CODE V's advanced features are combined with outstanding flexibility, ease of use, and technical support to help make you more productive.

### Goals for this Course

This course, which is for current CODE V users, will give you a more detailed understanding of the usage and operation of the program's more familiar features, and exposure to some of more specialized features as well. You will learn how to address your design and analysis tasks more effectively and discover new applications for CODE V in your work.

### Format for the Course

This online course will combine lectures and demonstrations, as well as hands-on examples and workshop problems. Questions and discussions are encouraged.

### Time schedule:

5 days: 9:00am – 12:00am / 2:00pm – 5:00pm

### Price:

2000 euros /attendee

### Course Outline

Topics will be selected from among the following list, with the intent being to tailor the course content to the needs of the attendees. Please let us know, preferably in advance, if you have a particularly strong interest in any of the listed topics:

- Diffraction Analysis
- Environmental Analysis
- Diffractive Properties
- Advanced Optimization Techniques
- Interferogram Interface and Applications
- Macro-Plus Programming
- CODE V COM Interface
- Polarization Analysis
- Non-Sequential Surfaces
- User-Defined Features
- Topics in Tolerancing
- General Beam Propagation
- Workshop Solutions

### Who Should Attend?

Current users of CodeV are invited to attend these training sessions. It is recommended that you attend the introduction class first.

### To Register or For Information:

Please contact: [sales@lighttec.eu.com](mailto:sales@lighttec.eu.com)

#### IMPORTANT:

Each attendee should have his/ her own PC for the training. Access to Zoom platform is required.

CodeV must be installed on the PC. Light Tec will provide key files if needed

Tuition includes teaching materials.

Tuition must be paid in full 10 days after the training.

Training sessions are subject to space limitations and topics are subject to change without prior notification

**Minimum enrolments apply. Under 4 participants we will cancel the training and postpone your participation to the next training.**
